Pork Markets 2017 and 2018, a look to the future

Members - Grain Market Discussion

Members - Determine a name for the group that better reflects the individuals positioning in the industry. Is "Emerging" still accurate?

10:00 am Members - Member Topics discussion

11:30 am Adjourn

Mark your calendars for the fall meeting:

- September 12-14, 2017
- Kansas City, MO. Embassy Suites Hotel, Airport

Member Discussion Topics

- How do members manage variation across contract growers, i.e. building types, design, ventilation, feeder space, feedmill, etc.?
- What is the best new technology in the wean/finish or nursery/finish?
- Do you think action in the poultry industry to highlight/market antibiotic free on much of their production will increase consumer requests for the same things in pork?
- What new tech are making life easier in larger systems...for operations, admin or data back to accounting.
- Are you experiencing more issues with permitting?
- Vet feed directives..how are we doing?
- Are we still expanding beyond 2017?
- Where are markets headed over the next two years?
- Are we experiencing a reduction in meat quality in higher end food service and/or export?
- Exports....how can we become more aggressive...what is the next big thing like ractopamine for export opportunities?
- What are you doing to cut costs...trim the fat in the downturn of prices?
- Any changes in expansion plans after some red ink?
- Effect on Trump presidency on exports, regulations, etc.?
- How do you measure employee performance objectively....as our farms get larger?
- How to manage a system a long way from your base operation?
- As operations get larger how do we maintain control of people, costs, operations, etc....do we add more management, technology...gut feel?
- With the increase in production, will we have enough space for sow slaughter?
- How do we drive animal welfare practices through the entire system to get consistent results in all farms?

- What are you using for a minimum weaning weight? Are light weight isoweans the next lowest hanging fruit?
- How do you manage maintenance for existing facilities?
